Project title/Phrase

Team Member 1 name,Team Member 2 name,Team Member 3 name,Team Member 4 name

Abstract:

a brief write up describing work entirely.Should answer the what?,why?,and how? Of your project in a crisp and consise manner in a single paragraph.

Problem addressed:

few lines on the problem you are adressing,only about the task and nothing require about for your solution.

Your approach:

few lines defending the reason behind you selecting such an approach and how beneficial and inovative it is.

Key Concepts used:

Entire technical descryption of the implementation and theory behind them.Feel free to use flow charts and diagrams to explain your idea better.

Conclusion:

Discuss the amount of success of your work and the gap yet to be filled for betterments in your work.

Discuss the limitations of your work and possible future work that you could possibly do.
